IRREGULAR SILVICULTURE IN THE LOWLANDS: TRANSFORMATION IN PRACTICE

Marking is a difficult skill to learn, particularly within an unfamiliar discipline such as Irregular Silviculture.

These Courses provide an in-depth introduction to the theory and practical application of irregular silviculture in coniferous and broadleaved stands with the emphasis on lowland forests.

In 2019 there will be two day courses. The two-day course incorporates site visits in irregular coniferous and broadleaved stands and looks in detail at the silviculture of transformation and the monitoring of stand structure and performance.
THE COST OF THE TWO-DAY COURSE IS £340 excluding VAT (£408 including VAT) PER PERSON.

Woodland Heritage will be offering bursaries on a case by case basis. Please contact Belinda Moore of Woodland Heritage on 01428 652159.

Woodland Heritage will be supporting no more than two attendees per running of the course in the future and so applicants may face competition for their possible bursary, therefore early applications are advised.

Members of Confor could consider applying for assistance to their Education & Provident Fund (www.confor.org.uk/resources/education-provident-fund).

THE NEXT TWO DAY COURSE WILL BE HELD ON WEDNESDAY 17th & THURSDAY 18th April 2019.
